Save time and money with our flood barriers and remedial solutions. Say goodbye to sandbags and hello to our range of flood solutions to save time and resource to protect your property against flood.

We have a range of temporary flood barriers to deflect flood waters, to protect against tidal and flood surge and for passive water flood protection.

Our flood barriers are quick and easy to install and afterwards can be stored away ready for next time.

Vikoma's flood barrier, Flood Guardian, is a frame free, water and air filled temporary barrier ideally suited to flood deflection. Protect your assets by deflecting the flow of water away. A unique, easy anchoring system which is quick and easy to install and pack away post flood for use next time.

Flood Guardian construction is based on one of our most popular, tried and tested designs and can also be used for keeping oil, pollution or debris from beaches.

The flood barrier comes in a range of sizes from 500mm to 1000mm. It is manufactured in strong, flexible neoprene for a long life which keeps your costs and the environmental footprint to a minimum.

We also offer a full range of equipment for flood remediation, which includes our world renowned vacuum recovery system as well as storage tanks.

With over 50 years of UK manufacture and supplying environmental solutions worldwide, you can rely on Vikoma for your flood solutions.

## Vikoma Flood Remediation

### Contain or deflect it .....

A range of inflatable flood barrier and rigid barriers. Air and water filled solutions, temporary or demountable.

### Store it .....

Maximise storage with our range of collapsible, self supporting storage tanks. Hard wearing, UV and hydrocarbon resistant.

### Pump or power it .....

A range of reliable, high performance pumps and powerpacks. Pumps from portable to large, diesel or electric.

### Clean up .....

Mini-Vac, our user friendly vacuum system, ideal for isolated/difficult to reach areas. Heavy duty, easy to take apart, carry and re-assemble.

### Container and trailer solutions

Space efficient container and trailer solutions for easy storage and transportation to the flood.

### Response kits

Ready packed in containers that fit a 4x4 pick up, an easy solution to ensure you have everything needed for a quick flood response.
